

Corrections to published record

Lenexa Police Department, School Resource Unit · issued 25 July 2026

Two errors were found by an audit run after publication. Neither is corrected by quietly editing the original: the affected documents carry published SHA-256 digests and one sits inside a sealed extract, so editing them would break a fingerprint a reader may already hold. The originals stand unaltered and this sheet is the correction. A record that can be silently amended is not a record.

Erratum 1 — statute number mislabelled in a source list

Affects: ARK Stewardship Brief, 3 pages, source list item 8. Severity: material for counsel.

WHERE	WHAT IT SAYS	WHAT IS CORRECT
Brief, page 3, sources item 8	Labelled K.S.A. 38-2309 , but the link resolves to the text of 38-2310 .	Both statutes are real and both are relevant. 38-2309 is at 038_023_0009 and 38-2310 at 038_023_0010 .

Nothing argued in the brief turns on which number is cited — both statutes bear on who may see a juvenile law-enforcement record and when. The label was still wrong, and counsel checking it would have found a mismatch. The generator now carries both statutes, separately linked.

Erratum 2 — the copyright instrument was cited to a private repository

Affects: the sealed extract, and RECORD.md. Severity: high when found. Now resolved at source.

Both documents cite the umbrella copyright instrument at github.com/EVEglyphDesign/umbrella-copyright-proof. When those documents were published that repository was **private**, so any reader outside the organisation who followed the citation got a 404. That was the worst kind of error in this particular argument: the case put to the department rests on rights being documented and checkable, and the document pointed at a door that did not open.

RESOLVED 25 JULY 2026 — THE CITATION NOW OPENS

github.com/EVEglyphDesign/umbrella-copyright-proof

Made **public** the day this sheet was issued. It carries the canonical instrument — the stamped summary, 19 pages, SHA-256 086e823d...e140aa25 — its append-only governance ledger, and principles P0–P11. Nothing was changed to publish it; it was checked for third-party personal information and contains none. Plain-language terms remain at [LICENSE-NOTICE.md](#): what may be read and quoted freely, and that design-founder credit to Donat Omer Thériault is irrevocable.

The published brief and the sealed extract were not edited to reflect this. Their citation text is unchanged and their digests still verify. What changed is the door: it opens now.

Supersession — what has been reissued, and this sheet's own revision

All on 25 July 2026, before delivery. If you hold a copy, check which one.

VERSION	SHA-256	STATUS
Command Briefing, first issue	38862e840939374d95fb4c3a5fcb7c1f8fde3d9b360da3e09edbc20ff2419e1d	Superseded. Cited one Kansas statute under the other's number.
Command Briefing, current	b64fe592b9eb703b9c8be023f9b12508e5fbbc8b98a366ca9b7b614a143d29f8	In force. Both statutes listed and separately linked.
This sheet, rev 01	e93e122b75904cd8a9aefe6ddad681bc03d033fe20b75e76c4d68e3d7e89148a	Superseded. Recorded the copyright citation as unresolved; it was resolved hours later.
This sheet, rev 02	computed on publication – printed on the record page and in RECORD.md	In force. This document.

The Stewardship Brief and the sealed extract have **not** been reissued and their published digests are unchanged. Erratum 1 and Erratum 2 above are how those two are corrected.

Keep this sheet with the documents it corrects. Anyone auditing this material later should be able to see, without asking, what was wrong and what was done about it. Every document in this lane is listed with its fingerprint on [the public record page](#).
