

Lenexa Police Department

The copyright and stewardship instrument, extracted from the corpus, watermarked, fingerprinted and published before it is transmitted.

KEY	EVEGLYPH-LNX-2026-0725
ISSUED	25 July 2026, Lenexa, Kansas
AUTHOR	Dany Theriault, EVE Glyph Design
DESIGN FOUNDER	Donat Omer Thériault — credit irrevocable
HELD IN STEWARDSHIP BY	Pacific Utilities Design Council
PREPARED FOR	Lenexa Police Department — School Resource Unit, Special Operations Division
SOURCE CORPUS	github.com/EVEglyphDesign/paix-parish-platform
STATUS	Watermarked extract. Extract, not integral.

The instrument, in full

© 2026 Dany Theriault. EVE “digital stem cell” glyph and glyph-based design principles — all rights reserved. Stewardship of rights of use and assignment for large public and institutional usage rests with the Pacific Utilities Design Council. Published as a time-stamped record of authorship and intent.

Reproduced verbatim. It is one paragraph and it carries at the foot of every page of every surface in the corpus — 662 pages at the date of this extract. Founder credit to Donat Omer Thériault is irrevocable and travels with the work.

Reserved · assignable · granted

RESERVED BY THE AUTHOR

The EVE “digital stem cell” glyph and the glyph-based design principles behind it. Founder credit to Donat Omer Thériault. Identification as the origin of the method, not the vendor of the files. Not assignable, not licensable, not extinguished by use.

ASSIGNABLE, THROUGH THE COUNCIL

Rights of use and assignment for large public and institutional usage. Held in stewardship by the Pacific Utilities Design Council, which is the counterparty for an assignment at institutional scale — not a single individual whose continuity a city would have to gamble on.

GRANTED ON ASSIGNMENT

A governance receipt recording what was granted and on what terms. Exit at any time with a full export of the institution’s own content. The right to teach and publish under the institution’s own name, with the authorship line intact at the foot of the page.

DOCTRINE, BINDING ON EVERY ARTIFACT IN THIS LANE

No profiling of individuals. Ever.

No person is counted, categorised or targeted. On a school surface: no student analytics, no engagement scoring, no behavioural flags, no cohort segmentation, nothing that produces a record about a named child.

Safety rank one, betterment rank two.

Everything else — competition, engagement, growth, revenue — starts at rank three. A feature failing rank one does not ship. A feature clearing rank one but not rank two still does not ship.

Fingerprints

SHA-256. Computed on the delivered bytes. The proof lives here, in the ledger and the public repository — not inside the files. Nothing is hidden in the artifacts: no steganography, no embedded payload, no tracker, no beacon, no remote asset. That is a canon requirement, not a courtesy.

ARTIFACT	SHA-256
Content payload of this extract the text sealed above, independent of PDF rendering	db59c6c9a885f0575f64cd14f652469 c5b1b80ea6bbc8f0d8c539b38aa84632

The digest of this extract itself cannot appear inside itself. It is published in the companion manifest, ARK-EXTRACT-LENEXA-PD-2026-0725-manifest.txt, committed in the same repository.

Verification

Recompute and compare. One command, no tooling to install, no account, nothing to trust on our word:

```
sha256sum ARK-EXTRACT-LENEXA-PD-2026-0725.pdf
certutil -hashfile ARK-EXTRACT-LENEXA-PD-2026-0725.pdf SHA256 (Windows)
```

Compare the result to the value published in the manifest and in the public repository. **A copy whose fingerprint differs is not this extract.** Any copy received by message, forwarded, printed and rescanned, or altered in transit will fail this check, which is the point of publishing the fingerprint before transmission rather than after.

Where this is published

The extract and its manifest — eveglyphdesign.github.io/paix-parish-platform/lenexa/
ARK Stewardship Brief, 3 pp. — eveglyphdesign.github.io/paix-parish-platform/lenexa/ARK-Stewardship-Brief-Lenexa-PD-2026-07-25.pdf
ARK dashboard, School Resource Unit — eveglyphdesign.github.io/paix-parish-platform/lenexa/
